Salam Fellows!

I congratulate site's administrations for providing such great platform for Seraikis. I have surfed and amazed at your great effort to cover many aspects of Seraiki culture and heritage like history, music, places and epic deserts of sweet Seraiki wasaib. I suggest you to have a portion on this site totally dedicated for wasaib's problems like health, Education and other deprivations of facilities.

Jeenday raho tay Khush waso.

Dear Faheem,

Thanks for visiting wasaib and posting your comments and suggestion. I agree with you that we must have portion which highlights problems being faced by the Seraiki wasaib. But unfortunately we are facing shortage of writings by intellectuals and writers. Whatever material is available is outdated and rhetoric based.

We Seraikis are maintaining a criminal silence on whole range of issues, this silence is suicidal and with the passage of time will bring dire consequences. Throughout history Seraikis have suffered enormously but never spoke against injustice dispensed.

Lets hope we break this spell of criminal silence and start talking about what ails us.

Regards

Farooq
