
Being deprived

Posted by Faheem - 2006/08/30 23:41

Pakistan is basically an agricultural country. The major component of country's G.D.P depends upon annual crops. Southern Punjab is famous for it's rich soil and suitable physical conditions for cultivation. The people of this area are being deprived and ruined for last six decades. Everybody knows that Pakistan is developing country, But southern Punjab (Seraikistan) is at a distance from progress and development as compared to other areas of Pakistan. So there is great need for a separate province. Some benefits of a separate province "Seraikistan" are here (As i think) :

1. Concentration of resources and services at the center of southern Punjab.
2. Circulation of wealth among natives of southern Punjab.
3. Preservation of Seraiki's culture, civilization and language.
4. An easy way to country's progress.

I respect your opinion but Sorry to say that Seraikistan will may not make any difference to us ; The Majority Seraiki Community living in Dera Ismail Khan will be in more troubles.

I think it will be better to break all provinces and only one unit is better at top and then lower level District Governments only.

Allah de Aman Howney

dear khakwani and others,

without dera ismail khan and taank,we don't want seraiki sooba.don'k think of accursed 'one unit'.Pakistan suffered much because of that foolish action of the rulers.

regards
admin.

Dear respected brothers !

I did't say anywhere in my post that the new province should consist of southren punjab's districts only. The definition of Seraikistan's area is simple (As i think) "The districts of punjab where Seraikis are in majority as compared to other lingual groups". The main point is that the capitol (Administrative or governing district) should be in southren Punjab. NOW, the method or process to determine which district or adjoining area should be inculuded in Seraikistan, is simple. It needs a fresh survey or critical inspection of Seraiki's population.

Dear Admin and all others

The discussion we are starting now may be lead to develop the opinions of the Derewal Seraiki Community in future; I will try my best to record the reservations Derawal community has for Seraiki Sooba.

Hope the intellectuals struggling for this movement will participate with all of arguments and proposals.

1. Concentration of resources and services at the center of southern Punjab.

Q. What do think; will be the difference for us in quality of public services, if we start looking towards Multan instead of Peshawar?

2. Circulation of wealth among natives of southern Punjab.

According to your respective view now the circulation of wealth is in Central Punjab (Lahore)

Q. After Independence why the Punjab's majority community is still living below the poverty level?

3. Preservation of Seraiki's culture, civilization and language.

We also want to preserve our Seraiki culture, civilization and develop the language. But

Q. Why do you think this is the only way?

4. An easy way to country's progress.

How this an easy way?
