
Saraiki Videos on Internet

I think we should share saraiki videos or music on web. we live outside of Pakistan and it is very hard to get our sweet saraiki's media entertainment. There are very few entertainment sites on the web. Please share with all of us Pardesis. There are some good links on wasaib.com such as youtube.com/saraikivideos which has about 300 saraiki vodeos. We need more. If any saraiki brothers or sisters have something regarding music or videos, please share with all of us. www.youtube.com, yahoo videos or google.com has free video sharing services. I hope we all will share.
