
Heroes

Where are our heroes and the leaders ..

A nation without them is not a nation ..

Where is our identity, what do we like to be called .

We are not better than a mob, a mob will act better ..

where are the solutions and who will find them..

where are our songs, why don't we sing them ..

the poet is dead, the river flows no more ..

the poet is dead, the rive flows no more..
