## Seraiki Support on wasaib.com

Posted by geeraza - 2007/03/12 14:44

---

Assalamu Alaikum!

I want to post this message in Seraiki Language but I cannot write Seraiki in the message text box rightly. I think that wasaib.com should make one able to post message in seraiki also to promote Seraiki.

May soon I see posts written in Seraiki Language!

Best Regards - G. Raza

dear raza,

i saw that the font, while writing text message, on wasaib.com is not a seraiki supporting font. and there seems no option to select any other font (like Wasaib/Lateef/Scheherezade) . thats why you can not compose Seraiki here well. If an option of selecting font is provided in text box, seraiki will be compose able, but i dont know how it will behave after approaching others. i am sending a text in Seraiki for testing:

3h 3'Yì 3'D

{'D  
~'hì /ì DH'¼

Rizwan
